

IBERIANL5G EVOCAM

Key achievements:

- Drive tests.
- Reset RAT • Wait 10 seconds • Download for 120 seconds • Wait 20 seconds • 100 ping commands
- Real market failure point definition
- Comparison with initial proposal
- Top-bottom methodology- MNO interest zones

Portugal • NOS • MEO • Vodafone PT
Spain • Orange • Telefonica • Vodafone ES

Funded by the European Union

Challenges and recommendations

Main challenge

No 5G coverage so measurements in 4G

Few market failures

MNO commitment

Recommendations

Real coverage measurement

Parameters to be measured to be included such as Bandwidth and Latency

Main challenge

Definition of real market failures

V2X ecosystem business complex and not defined

Business Model

Deployment vs Commercialisation

Recommendations

EC to determine V2X technology

CCAM services on road

Neutral host deployment
