

Idea

Challenges and recommendations

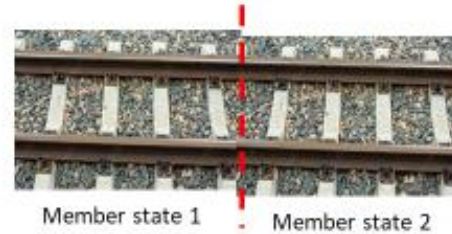

Main challenge

- From technology to service definitions

Recommendations

- Gradually move new Calls to more focus on common telco services

Through standardization agree on two services and fund implementation:

1) One crossing border service:

VoLTE \Leftrightarrow VoLTE or
PS data streaming \Leftrightarrow PS data streaming

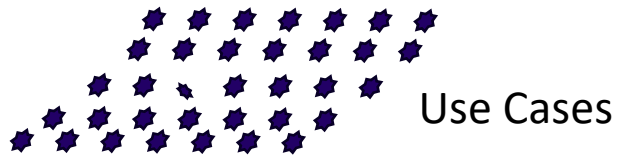

2) One common service:

Industry grade internet connection - SLA based service (see next page)

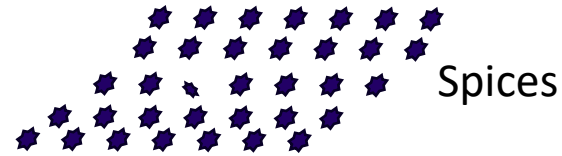

Funded by the European Union

Compute/Store	
IP	4G/5G/6G/...
IP	
DWDM	
Fiber	
Tech prop.	

SLA based service

- Industry grade internet connection
 - Performance
 - Security
 - ...
